OF THE SITUATION. HARD FIGHTS OF ALMOST DAILY OCCURRENCE

AND THE INSURGENTS CONSTANTLY GAIN-

ALLIANCE INTERFERE? Berlin, July 26.-Count Goluchowski, Austrian Minister of Foreign Affairs, returned to Ischl for the purpose of holding an interview with Emperor Francis Joseph, after having had a conference with Prince Hohenlohe, the German Chancellor, at the latter's château at Alt-Aussee, and reached Vienna on Thursday. On the day of his return to Vienna Count Goluchowski had an interview with Count Nigra, the Italian Ambassador to Austria, and since then Count Nigra has been summoned to Rome by the Marquis Visconti Venosta, the Italian Minister of Foreign Affairs. These comings and goings of diplomatic chiefs cannot be attributed to any other cause than the gravity of the situation in the East. A concert of the Powers has failed to effect any good results. According to telegraphic advices received here yesterday, the sing of the insurgents in Macedonia has become extremely formidable. Greece, while pretending to take stringent measures against any persons engaging in a raid on the Macedonian frontier, has allowed upward of 600 men, all of them armed with Lebel rifles, to enter Macedonia from Greek territory. These men, after surprising and cutting to pieces the Turkish troops at Moussa, succeeded in repulsing a strong force of Turkish soldiers which had been sent from Salonica to reinforce the Moussa troops. A dispatch to the "Vossische Zeitung" says that the reserves who have been called out under an irade from the Sultan are showing disposition to revolt, in consequence of the fact that their pay is greatly in arrears and the rations which are being issued to them are bad in quality and small in quantity. A special dispatch received by the "Neue Freie

Presse" from Salonica on Thursday says that the statements made by the Turkish officials concerning the situation are all calculated to conceal the desperate condition of affairs in Macedonia. Hard fighting is going on almost every day at Drumnitza, Serres and all points in the Perim Mountains. The Turkish reserves at Prizrend, Preshtima and elsewhere in that section are being equipped and sent to the front as rapidly as possible, and it is estimated that the total number of Turkish troops concentrated on the Macedonian and Bulgarian frontiers exceeds 7,000 men. Even this force, however, has not been found sufficient to make any headway against the insurrection, which, under the in-fluence of the successes already achieved by the insurgents in the field, is becoming stronger

Insurgents in the field, is becoming stronger every day.

Stimulated by these and similar reports, semi-official newspaper organs, like the "North German Gazette" and the "Cologne Gazette," are taking a more definite tone in their articles commenting upon the gravity of the situation. The "North German Gazette" reproduces an article from the "Cologne Gazette" which declares that imless the Powers interfere in an energetic way, instead of submitting proposals to the Porte, the troubles in Crete and Macedonia will never end.

The "Reichsbote" (Conservative) publishes a letter written by a German lady living at Monastir, wherein the writer narrates atrocitles which are practised there every day without the slightest attempt at interference on the part of the authorities. This letter has stirred up a strong feeling of indignation here, more, in fact, than the remoter massacres and outrages in Armenia. The "Reichsbote," in an article accompanying the letter, appeals to the Powers to cease their jealousies and interfere in behalf of the Macedonians and Cretans in the interests of humanity.

The Bismarckian organs, on the other hand,

The Bismarckian organs, on the other hand, The Bismarckian organs, on the other hand, are strongly opposed to any policy of interterence on the part of Germany. The "Neueste Nachrichten" declares that the Powers must continue in their agreement to maintain Turkish rule in Crete and Macedonia, which the insurgents are trying to shake off. If they continue their efforts to throw off the Turkish yoke, the paper adds, they must suffer the consequences. Europe cannot stake the peace of the world on their account.

In the course of his remarks he said that nothing would be done at the next session of Parliament except to pass supply bills, and that the consideration of the tariff would be deferred until the regular session in January. Changes will be made with the greatest caution, so as not to interfere with the business interests of the country.

The Government, he said, would settle the Manitoba school question within six months by methods of conciliation, and would also devote its attention to the agricultural interests of the country, to the development of the Northwest and to strengthening the commercial relations between England and Canada and between Canada and the United States.

PEACE DEMONSTRATION IN HYDE PARK. THE BIG MEETING UNDER SOCIALIST AUSPICES SPOILED BY RAIN.

London, July 26.-A deluge of rain, which began early this afternoon and continued throughout the remainder of the day, spoiled the international peace demonstration in Hyde Park organized by the International Socialist Congress, which will begin its sittings here to-morrow. A number of trades societies and many Socialists assembled on the Thames Embankment at noon and marched to Myde Park. It is estimated that 40,000 persons were in line when the procession started, and this num-ber was augmented steadily after Hyde Park was reached until the rain began to fall. Eventually the heavy downpour compelled the assembled crowd to break up into groups, which took refuge

HANLAN HAD A NARROW ESCAPE.

Halifax, N. S., July 26.-Edward Hanlan, the oarsman, had a narrow escape from drowning this afternoon while taking a practice spin on Bedford Basin. About half a mile from shore his shell collapsed, and the gunwales on each side of the shell worked apart, the splices being fastened with glue. which softened and separated gradually. This left only a frail boat to support the weight of the oarsman, who realized that he must reach shore within a few minutes or be in danger of going to the bot-tom. Hanlan headed for the shore at the highest speed he could command, and when about three feet from dry land the boat sank, and he had to wade ashore. Hanlan will probably borrow a boat for the single scull race to-morrow.

AN ENJOYABLE YACHTING TRIP IN THE NORTHERN FIORDS.

ENTERTAINMENTS ON THE HOHENZOLLERN-AMERICANS AT THE BATREUTH PERTIVAL

-THE CZAR HAUNTED BY FEARS OF NIHILISTS.

Berlin, July 26.—After the meeting of the Em-peror with King Oscar of Sweden and Norway at Molde on Thursday, the Imperial yacht Hohen-zollern, with the Kaiser on board, steamed up to Maerak, at the head of the Geiranger Fiord, which is about the end of the Emperor's Northern tour. Advices from Molde Fiord say that the Emperor had a week of better weather than that which experienced at the beginning of his trip. The entertainments on board the Hohenzollern have been excellent throughout the week. A choir of sailors, comprising 100 men, whose voices were finely trained, were heard to advantage at the Sunday services, and their chorals were accompanied by the ship's band. Upon these occasions the Emperor read a short discourse and two prayers.

Berlin has hardly ever before witnessed such a scarcity of notable persons in the city. Dr. Miquel, Minister of Finance; Baron Von Hammerstein-Loxton, Mimster of Agriculture, Domains and Forests, and Herr Nieberding, Imperial Minister of Justice, left the city for their holidays on Thursday. Count Posadowsky-Wehner, Minister of the Imperial Treasury, started for the Tyrol on Thursday, and Bosse, Minister of Ecclesiastical Affairs, Instruction and Medicinal Affairs, has gone to Carls-The foreign Ambassadors and Ministers are also generally taking their holiday. The Wagnerian festival at Bayreuth has attracted many of the most distinguished Germans and foreigners. Among those who are sojourning at Bayreuth are the Prince and Princess of Saxe-Meiningen, Prince Von Hohenlohe-Langenburg, Duke and Duchess Albrecht of Mecklenburg-Schwerin, Princess Vera of Wurtemberg, Prince and Frincess Von Leiningen, Count Von Wedel-Piesdorf and Dr. Schweninger, Prince Bismarck's physician. Among the crowds of Americans at Bayreuth are J. B. Jackson, First Secretary of the United States Embassy, and Mrs. Jackson; the Misses Butler, Louise Dana and Natalle Curtis, of New-York: Mrs. H. t. The dates of the Czar's proposed visits to the oringinal Continental capitals, if indeed they have ments have been made that his trip is becoming more uncertain daily, and Nihilism seems to be the spectre which is standing in his way. All that is now known of his intentions is that it is his purpose to visit Vienna and Berlin, and probably Paris, but when the visits will take place it is impossible to say. The Emperor's visit to Nijni-Novgorod, which he made on Saturday, was accompanied by the usual precautions, so far as rallway travel was concerned. The rallways over which he travelled were guarded by troops throughout, but when the Caar was within the limits of the city of Nijni-Novgorod, the usual lines of soldiers and police guarding the streets through which he passed were dispensed with. The Mayor of the city issued a manifesto to the people, urging them to maintain order and to keep the streets clear of crowds. The Mayor's confidence that the citizens would preserve order was not misplaced, as there was no trouble whatever.

VICTIMS OF CHOLERA IN EGYPT.

Both were victims of the Asiatic scourge. A feeling of gloom pervades the camp and the native troops are waiting with grief over the loss of the two officers.

*FLOODS IN THE OHIO VALLEY.

GREAT DAMAGE DONE IN WEST VIRGINIA, OHIO AND KENTUCKY.

Cincinnati, July 25.—Reports continue to come in of damage done by the heavy rains which fell in this section during the last three days. All the smaller streams are greatly swollen, and much damage to crops is reported.

At Clarksburg, W. Va., many houses are under water and the property loss will be great. Almost every bridge in Upshur County has been washed away. The Kanawha Valley, from Grantsville to Parkersburg, W. Va., is inundated and the losses to crops, timber, fencing, roads and bridges will be immense. Travel is entirely suspended. mense. In the northern portion of Keptucky all railroads suffered by roadbed and bridges being carried away, and the wheat crop is ruined.

At Gloucester, Ohio, the rain was the heaviest ever known. A large break at No. 9 Mine let the water rush in to such an extent that it will cause a sus-pension of work for several weeks, throwing 300 men-out of employment. No train has reached Cald-well, Ohio, since Thursday night, as all bridges were destroyed.

She was dressthrowing the burning oil over her head and arms without whose prompt aid she would probably have been burned to death. Examination of her injuries shows that her face was badly burned and both her eyes closed. Her physician says that several days must elapse before the full extent and probable effect of her injuries can be determined. This is especially the case with regard to the matter of preserving her sight, as it cannot be ascertained yet whether the burning fluid reached the eyes. Mrs. Eaton's husband died here only recently.

KHEDIVE ABBAS OF EGYPT ANXIOUS TO ABANDON HIS THRONE.

MISTERIOUS DISAPPEARANCES AT CONSTANTI-NOPLE-CATHOLIC UNIVERSITY AT OXFORD -\$500,000,000 FOR BRITISH LANDLORDS-ENGLAND'S LIFEBOAT SCANDAL-

MADAGASCAR'S QUEEN

Khedive Abbas of Egypt is declared to be on the point of abdication. He bitterly resents not only the tutelage of his British protectors and the subserviency to which he is subjected, but also the constant succession of slights to which he is compelled to submit at the hands of even the English officials in his employ and pay. The commander-inchief of his army, Sir Horace Kitchener, for instance, took no notice whatever of his message of congratulation after the victory of Firket, although that sent by Queen Victoria was dutifully acknowl-edged and published in the orders of the day issued to the Egyptian forces. Abbas, who is rich, does not hesitate to declare that he would infinitely prefer to live as his own master in Vienna or Paris than to continue in his present state of bondage, and is now, according to authoritative reports, haggling with the English Government about the amount of the allowance which he is to receive if he abandons his throne.

Among the startling features of the reign terror prevailing in Constantinople are the extraor-dinary number of mysterious disappearances of rich and prominent dignitaries, financiers, merchants and private citizens, many of them Greek and Armenian nationality. Victims either of imperial suspicion or of the vengeance of some of the pachas, beys, effendis and eunuchs, vanish between nightfall and daybreak, without leaving any trace; and so great is the terrorism that no one even ventures to ask what has become

So alarming is the increase of leprosy in the western provinces of Russia that the German Gov ernment has given orders for the immediate estab lishment of lazarettos at various points along the lishment of lazarettos at various points along the Russian frontier. Professor von Bergmann, the eminent Berlin physician, who has been consulted by the German authorities on the subject, does not hesitate to assert that large numbers of those Russians who enter Germany for the purpose of crossing the occan to the United States are afflicted with this loathsome and terrible maiady. Special precautions, therefore, should be adopted for the most rigorous medical examination of all immigrants reaching this country from Russia.

which are being circulated, to the effect that Lord Salisbury's Administration has wasted its time and that of Parliament during the present legislative session. True, nothing has been done for the people at large, but the landlord class, which constitutes the backbone of the Conservative party, has no reason to complain. A number of measures have been passed for their exclusive benefit, including the Agricultural Land Rating bill, the Landlords' Re-Agricultural Land Rating bill, the Landlords' Relief bill, the Scotch Relief bill and the Irish Relief bill. These alone represent a reduction of over \$12,00,000 in the annual contributions of the land-owning class to the National revenue; or, roundly speaking, a capital value added to landed property of some \$200,000,000, all of which will have to some out of the taxpayers' pockets. When to this is added the bill for stopping the importation of foreign cattle, and the repeal of the succession duties on ancestral pictures, it will be seen that the landlords have had pretty much everything their own way, and that the Government has not wasted time, at any rate so far as its supporters are concerned.

Ex-Premier Crispi is at the present moment un dergoing a course of mud baths at Abano, near Padua, his health being in a precarious condition Besides suffering from gout, he is afflicted with weakness of the spine, and is likewise almost en tirely blind, being unable to make up his mind to undergo the operation for cataract which alone can undergo the operation for the circumstances, there is little likelihood of his return to power for some time to come, which, in view of the fact that he constitutes the only alternative to the Marquis di Rudini for the office of Premier, is not without some influence on the political situation in Italy.

The glamour which has hitherto environed the Life Boat Institution of Great Britain has been ruthessly swept away by Mr. Labouchere, who in his last issue of "Truth" produces incontestable proof that the crews whom the public has been in the habit of regarding as heroes are accustomed to present the most extortionate claims for salvage when their services as life-savers have been called request. This practice has led to the m shocking abuses in the shape of taking unfair advantage of ships in difficulties, to the extent of downright blackmail and robbery. In view of these revelations, it is unlikely that the public will continue its large and generous subscriptions toward the maintenance of the institution until the employes have been placed upon the same pecuniary footing as the men of the Fire Department. As Mr. Labouchere points out, what would be thought of firemen who, on being sent out to extinguish a fire, declined to be fine operations on the burning building until they had bargained for and obtained the promise of a certain large sum of money for the performance of what, after all, are their bounden duties? vantage of ships in difficulties, to the extent of

SHOT IN A POLITICAL QUARREL.

FLORIDA RAILROAD MAN DANGEROUSLI WOUNDED BY A PROSECUTING ATTORNEY.

Jacksonville, Fla., July 26.-A dispatch to "The Times-Union" from Orlando, Fla., says that Cap-tain W. Bailey Tucker, general manager of the Tayares, Atlantic and Gulf Railroad and local manager of the Florida Central and Peninsular Railroad, was shot at 8.20 o'clock to-night by Alfred St. Clair Abrams, Prosecuting Attorney of Lake ounty. The shooting occurred at Tucker's home. Abrams used a shotgun loaded with buckshot. He discharged only one burrel, and only one bullet took effect, but it struck Tucker in the head and inflicted an ugly wound. The physicians, however say Tucker may recover. Abrams was lately the anti-railroad candidate for the Legislature in Lake ounty. He was defeated, and charged that Tucker had brought it about by unfair means. Abrams's wife was spending the summer here, and he came up from Tavares last night. Tucker and Abrams met to-night at the former's home, and the shoot-

ing resulted.

Abrams immediately surrendered. He is the only son of Major Alexander St. Clair Abrams, who was formerly associated with Henry W. Grady on "The Atlanta Constitution." Major Abrams came to Florida several years sgo, and in politics has been one of the anti-ratiroad leaders.
